DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 5/21/2008 has been entered.

Response to Arguments

2. As Applicant's arguments are directed to the newly added claims, they will be addressed below.

Response to Amendment

3. Claims 5, 15 and 33 have been cancelled.
4. Claims 40-48 have been added.
5. Claims 1-4, 6-14, 16-32 and 34-48 are pending.

Claim Rejections - 35 USC § 101

6. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

7. Claim 40 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The apparatus of claim 40 does not have any hardware and/or tangible components and as such fails to fall into one of the four statutory categories that define a patentable invention. The Applicant can overcome this rejection by adding limitations that would satisfy the 101 requirement, provided there is support in the specification for those added limitations.

Allowable Subject Matter

8. Claims 1-4, 6-14, 16-32 and 34-39 are allowable for reasons specified in the previous Office Action of 3/3/2008.
